

# All Your Payment Card Transaction Information... All in One Place

TransLink™ is a user-friendly, web-based reporting system that helps you manage your merchant payment card business right from your PC. With TransLink, you get:

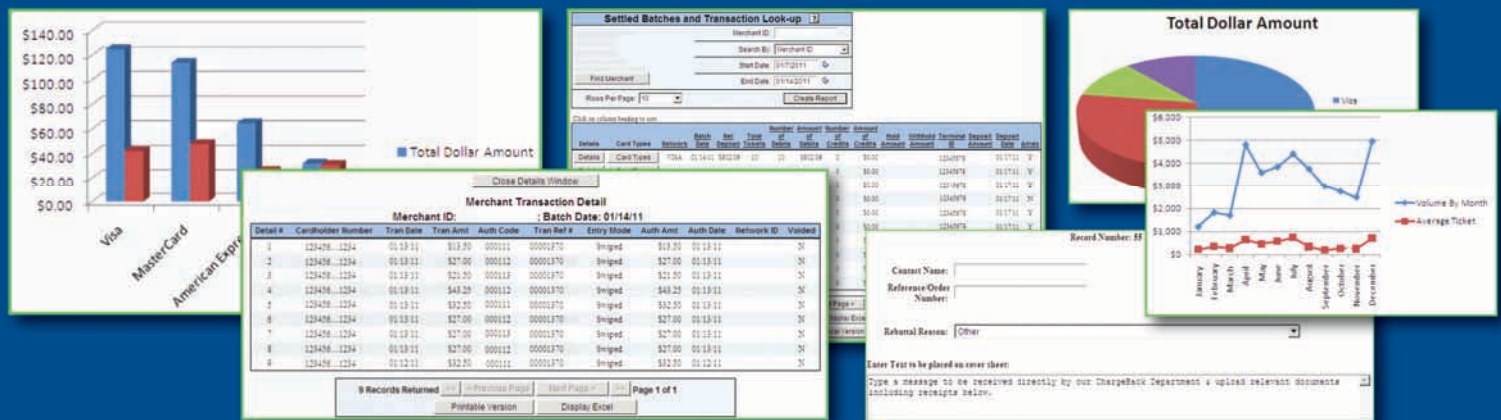

- Comprehensive activity reports that provide access to all your payment card transactions
- User controls that allow you to create your own reports based on the information you need
- Ability to respond online to chargebacks and retrievals, and to export reports to Excel format for analysis and import to accounting software
- Convenient data that's right where you need it, anywhere you can access the Internet

**FREE  
60-Day  
Trial!**

## Reports Your Way, When You Want Them

TransLink's expansive database includes an abundance of information about your business's payment card transactions – and that information is available in the database for 12 months, so you can evaluate your activity month-to-month, even season-to-season. Reports are available for:

- Adjustment History
- Authorizations
- Card Activity
- Chargebacks
- Merchant Statements
- Transaction History – sorted by:
  - › Batch Deposit Amount
  - › Cardholder Number
  - › Date
  - › Merchant ID
  - › Transaction Amount

**Try It for Free!** We're offering a 60-day free trial of TransLink so you can try it out for yourself and see how much your business can benefit.
